## DETAILED ACTION

1. The claims 1-40 are pending in the instant office action.

### ***Restriction***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to oxidoreductase comprising SEQ ID NO: 8.

Group II, claim 13, drawn to antibody binds oxidoreductase of group I.

Group III, claim(s) 14-22 has drawn to DNA encoding oxidoreductase of group I and vector, host cell expressing said DNA.

Group IV, claim(s) 23-40, drawn to a method of preparing organic compound using oxidoreductase of group I.

3. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I, II and III do not share same technical feature because they involve products comprising different technical feature. Groups II-III and group IV do not share technical feature because method steps of group IV neither use or produce the products of groups II-III.

Furthermore, the technical feature linking group I-IV appears to be that they all relate to oxidoreductase of claim 1. The oxidoreductase of claim 1 does not constitute a "special technical feature" as defined by PCT Rule 13.2, because it does not claim a feature,

which defines a contribution over the prior art as oxidoreductase of claim 1 is taught by Bayer et al. (Arch Microbiol 1995, 163, pp 310-312, from IDS).

4. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
